

D8.1 – NIMBLE Website

Project Acronym	NIMBLE
Project Title	Collaboration Network for Industry, Manufacturing, Business and Logistics in Europe
Project Number	723810 (H2020)
Work Package	WP8: Nimble Platform Adoption – Communication - Exploitation
Responsible author	Wernher Behrendt (Salzburg Research)
Dissemination Level	Public
Contractual Delivery Date	31.10.2016
Actual Delivery Date	30.12.2016 (submission of document describing the website)
Version	V.1.0

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 723810

NIMBLE in a Nutshell

NIMBLE is the collaboration Network for Industry, Manufacturing, Business and Logistics in Europe. It will develop the infrastructure for a cloud-based, Industrie 4.0, Internet-of-things-enabled B2B platform on which European manufacturing firms can register, publish machine-readable catalogs for products and services, search for suitable supply chain partners, negotiate contracts and supply logistics. Participating companies can establish private and secure B2B and M2M information exchange channels to optimise business work flows. The infrastructure will be developed as open source software under an Apache-type, permissive license. The governance model is a federation of platforms for multi-sided trade, with mandatory interoperation functions and optional added-value business functions that can be provided by third parties. This will foster the growth of a net-centric business ecosystem for sustainable innovation and fair competition as envisaged by the Digital Agenda 2020. Prospective NIMBLE providers can take the open source infrastructure and bundle it with sectorial, regional or functional added value services and launch a new platform in the federation. The project started in October 2016 and will last for 36 months.

Executive Summary

This is the accompanying document for D8.1 of the NIMBLE project – the website available at <http://www.nimble-project.org/>

1 NIMBLE Website

The NIMBLE website can be reached via: <http://www.nimble-project.org/>

It is organised as follows:

HOME

BLOG (<http://www.nimble-project.org/blog/>)

PROJECT (<http://www.nimble-project.org/project/>)

RESULTS (<http://www.nimble-project.org/results/>)

CONTACT (<http://www.nimble-project.org/contact>)

PARTNERS (<http://www.nimble-project.org/partners/>)

On the HOME page, there is already an invitation to interested parties on how to become an early adopter of the NIMBLE platform:

<http://www.nimble-project.org/ambassador-programme/>

The current home of open source developments in NIMBLE is on Github:

<https://github.com/nimble-platform>

The project's internal collaboration platform is based on Confluence and hosted by Salzburg Research. This platform is not public. There is also a development platform for cloud services which is hosted by IBM. This development platform is also not public.

All public NIMBLE communications and related, public code repositories will be made reachable via the website, in due course.

As soon as the NIMBLE platform is ready for early adopters, there will also be a "JOIN NIMBLE" link available on the website.
